

INCAVATRICE MOD. FS1 - STANDARD - JET BASIC EQUIPMENT DATASHEET

DESCRIPTION:

The "INCAVATRICE Mod. FS1-Jet" has been designed to work on cables diameter up to 150 mm in sub soil with hardness less up to 50 kPa.

Mod. FS1-Jet works emulsifying the subsoil by means of water-jet coming from provided nozzles and pushing down the cable along its routing to the defined burial depth

TECHNICAL DATA

Dimension:

- Length: 6.50 m
- Nucleus Width: 0.20 m
- Outer Width with flaps: 2.50 m
- Underwater Weight: 8 tons

Additional Data:

- Max soil hardness 40.0 kPa
- Max burial depth 1.5 m
- Max operating depth: 100.0 m
- Max burial speed: 500.0 m/h
- Max pulling during burial 5.0 T
- Minimum Bending Radius: 3.0 m
- Elbows radius (loops): 50.0 m
- Length of subsea umbilical 600.0 m
